MEMBER NATIONAL NEGRO PRESS ASSOCIATION. SURE RESULTS FOR HOME AND FOREIGN ADVERTISERS

The price of this paper is \$1.00 per year. If you like it send us your subscription and help us to continue our work for the race.

MOST ANY OF US are race lovers, but we dislike to measure our love and loyalty in dollars and cents.

THE NEGROES OF MUSKOGEE own more automobiles than the Colored citizens of any town in the state.

WHEN YOU HEAR anyone condemning The Star or abusing the editor (in his absence) investigate and you will find that person is not among the best people of Tulsa.

THE "BUGABOO" CRY OF NEGRO DOMINATION is an old trick of antiquated politicians, poor ignorant fools of the deepest dye. May the good Lord pity them.

HOLT DIED praying for peace. So far as he is concerned, there is peace. Death always brings peace, and though it came to him at his own bidding, it is still peace, and may it abide with him forever.

IF TULSA PUSHES FORWARD under the present administration most of us will soon forget the men responsible for it. If it retards and is pronounced a failure we will never forget them. "A hint to the wise is sufficient."

WHEN A MAN allows a cunning, designing woman to make a fool out of him it is almost useless, as a rule, for his best friends to advise him. He is like a drunken man—knows more than any one can tell him. "What fools some mortals be."

THE SORREHEAD FANATIC who is not satisfied with the prosperity of his town or any worthy enterprise of the town, who is always finding fault with the city officials, or some imaginary nuisance is a boni-fide pest and should be dealt with accordingly.

THE VISITORS to the K. of P. Grand Lodge next week are expecting to find in Tulsa the best all-round good town in the south west, and they will not be disappointed. Every citizen should take a personal interest in the visitors and see that they are properly entertained.

CONTRARY TO THE EXPECTATIONS of some and the wishes of others the editor is again at his post of duty, and The Star will continue to twinkle in the interest of right and justice.

LET NO ONE deceive themselves or allow others to deceive them concerning The Star. Remember, in spite of predictions that we would fall inside of three, six or eight months, and malicious and libelous assaults made upon us by our enemies, we are still in the business, and The Star continues to fight your cause just as it has been for more than two years.

THE SADDEST AND BITTEREST TIME in the life of the American Negro is that time each year when he is called on to pay hundreds of thousands of dollars into the treasury of a government in which he has little or no representation. Surely this is enough to arouse the spirit that impelled the "Boston Tea Party" but for the Negro's patience and forbearance.

THERE ARE A GREAT NUMBER OF NEGRO DEMOCRATS in Oklahoma who believe in the principles of true democracy and they will vote for DEMOCRATS who conform to the true principles of that party. If Negroes who vote the republican ticket and the democratic ticket alike will vote for MEN who are favorably disposed toward them as a race, the rabid loggerhead democrat and the prime-dog "Lilly White" republican would soon be consigned to a peaceful eternal oblivion and the political and economic condition of this state would advance accordingly.

DOCTOR'S BILL NOT DREADED

United States Consul Deedmeyer, Stationed at Prague, Enumerates Physicians' Rates.

According to a report from United States Consul Frank Deedmeyer, stationed at Prague, one may at least be ill in Austria and not dread the exorbitant doctor's bill that follows:

"The city of Prague, with a population of about 600,000, has only about 800 physicians, or one for every 750 persons. A doctor charges for a day-time call in the middle class family only 60 cents or ten cents more than if the patient calls on him in his office. For a night call the doctor receives from \$1.20 to \$2, according to the distance. Only professors at the clinics of the two local universities charge more, receiving from two to four dollars for a house call and two dollars for an office visit. As in this country, the physicians give only prescriptions.

"At most of the hospitals under the control of the Roman Catholic association," continues Mr. Deedmeyer, "treatment and care are entirely free. Nurses at the hospitals are paid 80 cents a day for the first year, with an annual increase of 20 cents a month; at sanitariums, from six to eight dollars a week; at private houses, from eighty cents to one dollar a day, board being always included for all nurses.

"About 100 dentists practice in this city. The average charges are: Drawing one tooth, 40 cents; cement filling, 60 cents to \$1; amalgam filling, 80 cents to \$2, etc.

"The annual incomes of these professional men are estimated as follows: Head professors in charge of clinics, salary paid by the government, \$1,400 to \$1,600, and \$5,000 to \$11,000 from private practice; other professors at clinics, salary paid by the government, \$1,000, and from private practice, \$4,000 to \$10,000; general medical practitioners not attached to any clinic, \$3,000 to \$3,500; the average income of a dentist being \$5,000."

DIET FOR THE WAR HORSES

Quantity of Oats is Restricted to Make the German Supply Go Further.

The German government has restricted the quantity of oats which may be given to a horse to 2 1/4 to 3 1/4 pounds daily, and German horse owners are afraid that this restriction will injuriously affect the health and usefulness of their animals. In a recent issue of the Berlin Lokal Anzeiger, Doctor Klinger, city veterinarian, shows that these fears are groundless. His experiments, carried on during many years with large numbers of horses, convinced him that maize forms a very satisfactory substitute for oats. At present, however, maize is as scarce as oats, so that some other substitute must be found. The most obvious one is potatoes, which are very abundant and have been stored in great quantities by all German communities.

Potatoes differ from maize, chiefly in containing a little less starch and considerably less digestible albumen. The deficiency in starch can be met by increasing the ration, and the deficiency in albumen can be compensated by adding a small quantity of some food that is rich in albumen.

Gangway.

Attractive Thing—Oh, we're here at last! Won't it feel good to be on land again!

Desolate Youth—It won't feel so very good—to me.

Attractive Thing (business of blank baby-blue surprise)—Why won't you be glad?

Desolate Youth—Why I—I can't be unless I keep on seeing you.

Attractive Thing—Why shouldn't you keep on seeing me?

Desolate Youth (cheering up)—Well, I didn't know.

Attractive Thing—Don't be silly. I'd be the most disappointed girl in the world if I never saw you again. (Fumbles for something in her vanity box.)

Desolate Youth (cheering up remarkably)—How about this evening?

Attractive Thing—Oh, this evening wouldn't do because—

Desolate Youth (wild eyed as he sees what she has slipped on her finger)—Wh—what's that?

Attractive Thing (blandly)—That! Why, that's my wedding ring. I never wear it when I travel because a married woman who lets everybody know she's married has such a stupid time.

But I've had such a good time on the trip—thanks to all you boys. See, There's George waiting for me. The one in the light gray suit—by the gangway. Oh, George! George! Here I am, George!

Philippines Produce Rattan.

Though the war has cut off the German supply of rattan for furniture and baby carriages, with a little help the Philippines islands can produce this material. An agent of the bureau of foreign and domestic commerce has been studying the problem of getting the Philippine rattan to the market.

In most of the island provinces there is a good grade of rattan, according to the bureau's agent, John R. Arnold. The matter of getting it to Manila and exporting it regularly is the principal problem in the situation to be solved, says Mr. Arnold.

Russians Join Allies in Egypt.
